SUMMARY

Production operator with hands-on experience across mixing, proofing, and oven operations in high-volume commercial bakery environments. Consistent record of holding process parameters within specification and reducing scrap on the bake line.

WORK EXPERIENCE

Lakeshore Baking Company, Chicago, IL

Lead Oven Operator, 2019 - Present

- Operate four deck ovens on a sweet roll line running 900 units per hour, holding bake temperature within a two degree band.
- Reduced burnt product scrap from 4.1 percent to 1.6 percent by standardizing tray loading sequence and rotation timing.
- Train incoming operators on heat handling, tray rotation, and doneness color standards.

Prairie Foods Manufacturing, Aurora, IL

Production Operator, 2014 - 2019

- Ran spiral mixer and dough divider on a three shift rotation, staging batches for the proofing room.
- Logged proofing chamber temperature and humidity every thirty minutes and escalated deviations to the shift lead.

EDUCATION

Harold Washington College, Chicago, IL

Associate of Applied Science, Food Production Technology, 2014

SKILLS

Deck oven operation, spiral mixer operation, dough divider setup, proofing chamber monitoring, batch record documentation, sanitation standard operating procedures, powered industrial truck operation.
